Rezilta nan ranje vèt yo nòmal.

Rezilta nan ranje jòn yo pa nòmal. Se pa tout rezilta ki make kòm "anòmàl" ki se rezon pou enkyetid. Ekip swen ou an ka eksplike ki tè s ki bezwen atansyon moman tout rezilta yo disponib.

Pou enfòmasyon jeneral sou yon tè s laboratwa, klike sou "i" ki akote non tè s la. Nan ka sa a, ou ka li sou yon CBC, oswa "Emogram."

- Pou wè imaj tès yo, tankou radyografi, klike sou bouton **Montre imaj** ki anba "Imaj Egzamen yo." Tanpri sonje ke se pa tout imaj yo ki ka wè atravè Patient Gateway. Si w bezwen yon kopi imaj ou yo, tanpri kontakte depatman radyoloji ki te fè tès la.
